Installation Guide for Users

App Name: FlightFinder

💻 Desktop Installation (Chrome/Edge/Brave)

1. **Open the Website:** Go to your FlightFinder URL.
2. **Check the Address Bar:** Look for the **Install Icon** (a monitor with a plus sign) on the far right of the address bar.
3. **Confirm:** Click "Install" in the popup.
4. **Desktop Icon:** A shortcut will be created on your desktop automatically.

📱 Mobile Installation (Android)

1. **Open Chrome:** Navigate to FlightFinder.
2. **Menu:** Tap the three vertical dots (⋮) in the top right.
3. **Install:** Select **"Install app"** or **"Add to Home screen."**
4. **Launch:** The app will now appear in your app drawer with your airplane logo.

📱 Mobile Installation (iOS/iPhone)

1. **Open Safari:** (Must use Safari for installation).
2. **Share:** Tap the **Share** button (square with an arrow pointing up).
3. **Add:** Scroll down and select **"Add to Home Screen."**
4. **Finalize:** Tap "Add" at the top right.

A Final "Peer" Tip for your Button:

Since the green button background didn't work previously, it is 99% likely a **Cache** issue. Before you give up on the green button:

1. Log into **PythonAnywhere**.
2. Go to the **Web** tab and click **Reload**.
3. On your computer, visit the site and press **Ctrl + Shift + R**. *If you see the green button then, you'll know your code was actually correct all along!*
